Common Nonprofit Challenges

Why change is critical:

- Fragmented systems lead to manual processes
- Staff & volunteers work across multiple programs and locations
- Complex funding and grant requirements demand precise cost allocations
- Audits and compliance pressure continue to increase

Risks of the Status Quo

- Using outdated or disconnected tools causes:
  - Time loss from manual entry and reconciliation
  - Inaccurate grant billing and cost allocation
  - Poor visibility into labor and spend
  - Frustrated staff and delayed reimbursements

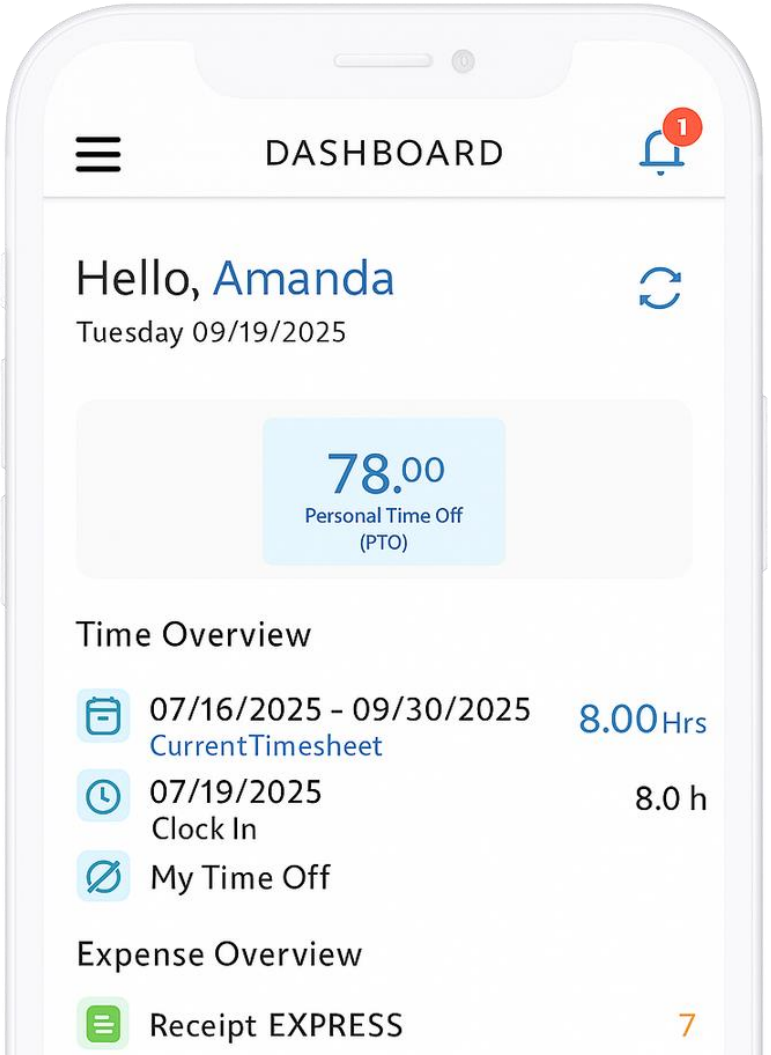
What Modernization Looks Like



- **A Better Way: Integrated Time & Expense**
  - One platform for time, expenses, and leave
  - Mobile-first, user-friendly experience
  - Policy automation for grant rules, per diems, and approvals
  - Real-time visibility for program managers and finance teams

Testimonials

"The tool is easy to use so we see a high adoption across the organization. User support is very responsive and quick. The built-in reporting facility is very convenient for the users, approvers and management. The tool is easy to maintain and the changes are effective immediately. We switched from Emburse Nexonia Timesheets."

"DATABASICS is reliable and easy to use for end-users, management and administrators, freeing up HR and Payroll resources to focus on higher value tasks."

"The application is easy to use, requiring only a brief initial orientation and minimal end user support for the application."
